Available for freelance PM projects

Agustina Bergara Isasi

Product Manager | Uruguay | Email | LinkedIn

Spanish native · English C2 · Works with US and Canada clients

Product Manager with 5+ years building and improving digital products for US startups, UNICEF and real estate. I start by **talking to the people who have the problem**, then build solutions that add real value to their lives. Industrial Designer by training, I now build AI-powered products.

Experience

JULY 2026 - NOW

Freelance Product Manager

Independent

Idea to launch: discovery, prototypes and MVPs, development and roadmap.

- **Car dealership in Canada** (in progress): a system run by an AI agent to manage service appointments and auto parts sales. It reduces the parts customers order and never pick up, and gives a more complete follow-up of vehicle warranties. One dealership uses it, 5 more are waiting.
- **Maketa Wellness** (for a physio in Punta del Este): rehab routines app, used by 50 patients so far. Now building scheduling and patient rehab tracking.
- **Usability test** for a marina marketplace (web, desktop and mobile): 3 types of users, 3 video walkthroughs, 47 prioritized tickets and a Top 5 of what to fix first.
- **Ola, dónde estás?** (own project): a surf app that tells you which beach has your kind of wave today. Designed and built by me with Claude Code.

RESULT In my freelance projects, cut MVP prototyping time from **2 weeks to 2 days**

MAR 2025 - JULY 2026

Project & Product Manager

Buzhi · Uruguay

Ran real estate development projects in José Ignacio and Balneario Buenos Aires on my own, reporting directly to the CEO.

- Found and analyzed new investment and development opportunities.
- Researched and managed vendors and budgets.
- Optimized timelines, milestones and deliverables.

RESULT Reduced construction lead times by **15%** by spotting risks early

2024 - 2025

Product Marketing Manager

UNICEF · Uruguay

Consultancy to design and launch a new product that reaches new audiences and improves donor loyalty.

- Discovery, development and launch of the physical and digital subscription “Fábrica de Momentos”, later taken as a reference case for other countries.
- Coordinated a cross-functional team of designers, marketing, developers and data specialists.

RESULT Launched in **9 months** and reached **100 subscribers** in the first 3 months

2021 - 2024

Product Manager

Bixlabs · Uruguay – USA

Built digital, user-centered products for startups and corporate clients in the United States.

- From discovery to launch, including user research and interviews for UX testing.
- Planned, prioritized and managed the roadmap and backlog.
- Led day to day work with design, QA and engineering, and talked directly with US clients and founders.

RESULT Acapedia: **800 doctors** earned their CME credits in the app in its first year

2019 - 2021

Product Operations Manager

UOOPAA · Buenos Aires

Smartphone cases, from market research to industrial manufacturing.

RESULT Cut mold development from **8 to 2 weeks**

2012 - 2019

Industrial Designer

Agencia BEE · Buenos Aires

Commercial furniture, exhibition stands and retail POP displays.
